ABOUT ME

I'm a results-driven Full-Stack Developer with a passion for building high-performance, scalable web applications that drive business growth

WORK EXPERIENCE

Cyril

Internship & Graduate | Software development
Ikeja , Nigeria
2024-06-01 | 2024-12-01

I specialize in software development by working on projects that require building and maintaining web applications. Over time, I've built a strong foundation in Next.js, React, Bootstrap, CSS, and Node.js, allowing me to create seamless, scalable, and efficient digital solutions. My responsibilities include developing responsive user interfaces, integrating backend APIs, optimizing performance, debugging issues, and ensuring a smooth user experience. Additionally, I work on authentication systems, database management with MongoDB, and deploying applications on platforms like Railway. I continuously learn and adapt to new technologies to enhance my development skills and deliver high-quality software solutions.
